Travel, insurance, goods & services, health, and marine benefits

Weather Course to be Offered

It has been a few years since the Weather Course has been offered by our squadron. MSPS has a new member, Amy Seeley, a forecaster for the National Weather Service Chicago office, who is willing to teach the Weather Course. However it is a 4 hour round trip for her to come to Milwaukee for the class, so I need to know how many members would be committed to take the course before I ask her to make the trek. I have seen Amy's Seminars and presentations at Coast Guard Auxiliary functions and have also taken her Coast Guard Auxiliary Weather Specialty course. I can say you will not find a person more excited about weather and climate than her. Her presentation style is dynamic, and can break down complex concepts into easy to understand pieces. Please contact me at educational@milwaukeepowersquadron.org or Amy at weather@milwaukeepowersquadron.org if you are interested in this course. I would be great to have a class of 15 to 20 persons. The class will be held in the Innovative Systems, Inc, conference room, at 9880 Ridgeview in Oak Creek (about 22nd and Ryan Rd). **The class will start on Monday September 19th and begin at 6:30 pm.** The class is anticipated to go for about 8 weeks. This class is open to members and non members alike, so bring your friends, dock mates and fellow club members. The cost of the class is \$70.00."
