America's Great Loop (Fear Knot)

At our member's meeting in Oct of 2011 Captain Gene Schnagl and his wife, Kathy gave a presentation about their Great Loop adventure. Gene and his wife, Kathy have since written a book about their almost 7,000 mile circumnavigation of the eastern United States. Through personal experience they learned to overcome their fear and anxiety of such an undertaking and completed the adventure of a lifetime. Their book Fear Knot was written to allow those boaters who share this daring dream called America's Great Loop to successfully accomplish this goal, without the fears of the unknown.

You can obtain a copy by going to www.amazon.com and entering the book name, Fear Knot.
